Merry Christmas!

To all children and grown-ups – thank you for making this week in school so special! It has been wonderful having you all in school again for our Christmas assemblies and the children have certainly done us all proud. We are so lucky to work with such lovely families and we would like to thank you all for your kindness. Thank you also to all BJS staff, who have, once again, gone the extra mile this term and especially this week. Their singing and dancing has also blown me away! ☺ We still have some festive activities planned for the children on Monday and Tuesday in school, which we are all looking forward to. Hope you enjoy the snow this weekend and we'll see you for our last two days of term next week! Mrs Johnson ☺

A few snapshots of our festivities! Please see our Twitter page for more photos (@broadwayjuniors)

A GREEN Christmas

At Broadway, we always like to reduce, reuse and recycle where possible! Please turn over for action you can take this Christmas.

Uniform Policy – Hairstyles

Please may we remind you that patterned hair is not allowed.

Safety message

Over the Christmas holidays, please monitor what your child is watching on the likes of YouTube and Netflix. We have heard quite a few children lately discussing programmes they have been watching that are rated 15 or 18 and contain disturbing scenes.

Important dates:

Tues 20th Dec – break up for Christmas

Wed 4th Jan – INSET day

Thurs 5th Jan – Children return to school

Fri 6th Jan – Onesie Day! (Our annual tradition - wear onesies or PJs to school for a cosy day to celebrate the first Friday in January!)

Reduce, Reuse, Recycle 12 Days of Christmas Action

This Christmas, take part in our 12 Days of Christmas 3Rs Action Project. Our twelve top tips for a greener Christmas will increase your awareness of recycling, and waste reduction. Or why not challenge yourself and create some of your own recycling and waste reduction actions?

1

Use an artificial Christmas tree. You can then use it for years to come

2

Make Christmas decorations out of recycled materials

3

Switch Christmas tree lights to LED lights

4

Clear out old toys and donate them to a charity shop

5

Compost your vegetable peelings (Always check what can be composted first)

6

Flatten cardboard boxes before putting them into the recycling

7

Take part in a litter pick over the Christmas holidays

8

Give a homemade gift rather than buying one

9

Make your own Christmas crackers

10

Make a dish out of leftover food. Remember: Love Food, Hate Food Waste

11

Re-wear an old Christmas jumper or swap with a friend, rather than buying a new one

12

Take a reusable water bottle with you whenever you leave the house
